

TRAUMA CARE AFTER RESUSCITATION

# THE TRAUMA COURSE THAT STARTS... WHERE THE OTHER COURSES END

A COURSE FOR NURSES  
ACROSS THE TRAUMA SPECTRUM

## Program Description

Unlike trauma education programs targeted at prehospital and emergency care providers, the Trauma Care After Resuscitation (TCAR) course is specifically designed for acute care, critical care, perioperative, and rehabilitation nurses.

This program gives inpatient staff members the foundational, evidence-based information and critical thinking skills necessary to meet regulatory requirements and provide excellent care to this challenging patient population.

## Trauma Education in the Age of Social Distancing

No classroom? No problem! The new Live Online™ format brings TCAR to you, wherever you are. This virtual version of the course includes interactive quizzes, Q&A opportunities, and features the same in-depth material and high-quality visuals as in the classroom. Course content is divided into four, 4-hour parts to promote learning retention. Enrollment includes a full-color, 160+ page, downloadable eSyllabus.

# TRAUMA CARE DOESN'T STOP AT THE ED DOORS. WHY SHOULD TRAUMA EDUCATION?

- Mobilization
- Delayed Injury Presentation
- Sepsis & Organ Failure
- Rhabdomyolysis
- Nutrition
- Pain Management
- Geriatric & Bariatric Patients
- Late Complications
- Compartment Syndrome
- VTE Prophylaxis
- Intra-abdominal Hypertension
- Wound & Skin Care
- Alcohol Withdrawal
- Post Traumatic Stress
- Fluid Management
- Organ & Tissue Donation

## Program Overview

The course begins by focusing on concepts relevant to the nursing care of the injured, hospitalized patient:

- The trauma care spectrum
- The biomechanics of trauma
- The body's response to injury

Learners then have the opportunity to apply these concepts by participating in interactive expanding case scenarios that focus on admission-to-discharge care of patients with injuries to various body regions. Cases include the surgical, medical, and nursing management of patients with:

- Thoracic trauma
- Abdominal trauma
- Musculoskeletal trauma
- Craniocerebral trauma
- Spine & spinal cord trauma

## A TRAUMA FUNDAMENTALS COURSE DESIGNED TO SATISFY THE LEARNING NEEDS OF INPATIENT NURSES AND OTHER CLINICIANS
